The lowest Bidder will be the Bidder submitting the overall lowest total price based on the quantity criteria listed in the Bid Price Sheet (Appendix C) relative to the responsive products listed in the Technical Compliance Worksheet (Appendix B). Due to the possible variations in Transponder types, only the lowest priced Interior Mount Transponders will be used for Interior Mount Transponder evaluation purposes. Price evaluation criteria will include the following items as specified in Appendix C:

- 250,000 Interior Mount Transponders* in FY10-11 (50,000 in FY12 & 50,000 in FY13)
- 20,000 Exterior Mount Transponders** in FY10-11 (20,000 in FY12 & 20,000 in FY13)
- 160 Hours of Support Services
- Sufficient Reader Subsystems to cover 37 Gantry Locations.
- 7 Desktop Reader/Programmers

If there are any discrepancies or conflicts between the provisions of this paragraph and the contents of Appendix C, Appendix C (as revised 8-19-09) shall control.

* Although pricing is desired for both Non-Feedback as well as Audio Feedback Interior Mount Transponders (if available), in order to allow for an “apples to apples” bid evaluation of price, only the lowest priced Interior Mount Transponders offered in response to this ITB will be used for Interior Mount Transponder evaluation purposes. SRTA reserves the right to purchase any of the Transponders offered on the successful Bidder’s Bid Sheet.

** If Bidder’s proposed solution does not require an Exterior Mount Transponder, then Bidder’s unit price for their lowest priced Interior Mount Transponder will be used for evaluation purposes.

4. **The term “7 Portable Reader/Testers” appearing in Subsection 22.1 on page 9 of 15 of the ITB is hereby deleted and replaced with the following term: “7 Desktop Reader/Programmers”.**
5. **The term “4 Reader/Testers” appearing in Subsection 22.2 on page 9 of 15 of the ITB is hereby deleted and replaced with the following term: “4 Desktop Reader/Programmers”.**
